MAY 2015

From the President's Desk

I hope all went well with the events this past month. It was the first time in many years that Mijo, KF6BEB, and I missed a MARC event. We were on the Freedom of The Seas cruise ship, in the Caribbean south east of Port Canaveral Florida. Our trip was to celebrate her sister and brother-in-law's 50th wedding anniversary. Not something that we could miss. We arrived back in Florida today, Sunday 26 April and will return to California in time for the MARC net and our meeting in May.

Don't forget the May meeting is our Anniversary meeting. We should have some very special gifts on the table for our monthly drawing. If you want to bring a prize/gift please bring an item of at least \$20 in value. No 50-50 and door prizes this month. The drawing will be like the Christmas drawing. One set of tickets \$1 each with tickets drawn and placed on the gift to be given away. Also, if my camera still works and I don't forget to bring it, we will take our annual group photo after the meeting. I hope the MARC members who volunteered to bring a backup camera don't forget.

I will apologize for the short article this month but I am fighting Mijo's new laptop. It is a touch pad with a touch screen HP. I type by touch not looking at my fingers, if I let my hands sag near the touch pad the setting go crazy on me. I need my

standard keyboard! Hope to see you at the meeting if not Mijo and I send our best wishes to all.

John F. Reynolds
President MARC

**MOTORCYCLE ONLY CHECKPOINT
BAN LEGISLATION INTRODUCED.**
April 16, 2015

Congressman Jim Sensenbrenner (R-WI) announced April 16th that he filed a bill, H.R. 1861, to prohibit the federal funding of motorcycle only roadside checkpoints, the Motorcycle Riders Foundation (MRF) reports.

Sensenbrenner had this to say: "This bill protects motorcyclists' rights and promotes crash prevention. Motorcycle checkpoints profile motorcyclists, using taxpayer money to corral them along the highway and check

for infractions that do not cause crashes. Preventing accidents is the best use of taxpayer funds and the most effective way to save motorcyclists lives."

..This bill joins a similar one currently being considered by the U. S. Senate. S 127 was introduced in January by Senators Shaheen (D-NH) and Ron Johnson (R-WI). S 127 also prohibits the federal funding of motorcycle only roadside checkpoints. If you have not done so already, contact your two U.S. Senators and ask for their support of S 127.

This legislation will be one of the main points of focus during the upcoming national motorcycle lobby day, Bikers Inside the Beltway, May 14th, 2015 in Washington, D.C. Be a part of what is most certainly the most important day for motorcyclists. Contact the MRF office should you need help arranging your visit to D.C. and setting up meetings with your Representatives and Senators.

"Happy Mother's Day" means more
Than have a happy day.
Within those words lie lots of things
We never get to say.
It means I love you first of all,
Then thanks for all you do.
It means you mean a lot to me,
And that I honor you.

But most of all, I guess it means
That I am thinking of
Your happiness on this, your day,
With pleasure and with love.

DEL MAR TOUR DE CURE APRIL 18, 2015
START/FINISH @ DEL MAR FAIRGROUNDS
2260 JIMMY DURANTE BLVD, DEL MAR, CA 92014
GOAL: \$ 420,000 RIDERS: TEAMS: 54
ACHIEVED: \$ 263,697.54 RIDERS: 591 TEAMS: 53
From SDTDC:

THANK YOU!! - We hope you enjoyed your experience with the 2015 SDTDC. Your support of our mission will enable continued research into better treatments and a cure for diabetes as well as advocacy and education efforts. We'd love to see you again on April 9, 2016 for the next San Diego Tour de Cure at Del Mar Fairgrounds..

Many thanks for the those participating in the SDTDC:
Net Control: KF6HJT Teri, who did a great job scribing & KD6FHN Ray. APRS: Chuck KG6NJP
Motors: Michael AF6FB, Jeff KB6SUP, Charles KF6TXL, Bill K6WBD, John KC6ZOZ, Mark KE6ZRP & Jim KD6REA

SAGS: KD6UZM Alvin, KJ3NAN Jennifer & Dan (no call)

This was one of the quietest events we have ever done.

TOUR DE OC APRIL 18, 2015
START/FINISH AT NEWPORT MESA CHURCH & VANGUARD UNIVERSITY
2599 NEWPORT BLVD, COSTA MESA, CA 92626
GOAL: \$100,000 RIDERS: 350 TEAMS:
25, 55, 100 mile routes

The 2015 TDOC was almost incident free. To my knowledge we had only one accident, that we didn't hear about till the following week. We didn't have flats and only had one late rider that Scott followed in after the route closed.

Great JOB from every MARC member.

Kim KI6MRQ (who worked very hard on this event, Scott who was King of Sags.

ORANGE COUNTY SURF 2 SUMMIT Oct 17, 2015
ADA Office: 17752 Mitchell Avenue, Suite H, Irvine, CA 92614

Yorba Linda Park 26m & 50m & family ride—
River bed trail to Huntington Beach(This ride is
gearing up for 2016- MARC will not participate in this
event.) There will be a mountain bike ride also.
Goals: \$103,000 Riders: 300 Teams: 40

Much discussion on the March 6, 2016 event in Mission Viejo which is very well motivated for this event recreating the 1984 Olympic route in Mission Viejo. They have been advised that "MARC" will handle the event traffic on the course. ADA made sure they knew about "MARC". The city is advising their community of this event in hopes they get volunteers and businesses involved. Which sounds like they are ready, willing & able to participate.

Goals for this event has not been established...

Mike N6QZT Bonnie KD6OFQ

MS BAY TO BAY 2015
START @ Irvine Transportation Center
15215 Barranca Parkway, Irvine, CA 92618
OVERNITE @ Sheraton Carlsbad Resort & Spa , 5480
Grand Pacific Dr, Carlsbad, CA 92008
FINISH@ Hospitality Point, Mission Bay, San Diego, CA
GOAL:: 2,400,000 ACHIEVED: \$66,774

Here is our chance to get more recognition for the work we do for the MS event. Do you think that those in MARC, who participate in the organizing and route creations and route checking and route list creation and route list creation error checking do you think our folks would be interested in partaking in this? check out the attachment.

The MS has hired/obtained a company who is using social media and marketing techniques to advertise the MS150 ride. They are asking to interview us, who or how many I don't know. and do a short interview as to what is our involvement in the ride...

Interview questions??

1. What is your "job" or "volunteer" position for the Bike MS event? sag vehicle driver, bike mechanic, first aid, motorcycle sag etc??
2. How long have you been involved with the Bike MS event? Also how long have you been involved with the MS Society overall?
3. What personal connection do you have to MS or the Bike MS event?
4. What is your favorite memory or memories from a Bike MS event?
5. Are you connected to or part of any team that participates in Bike MS?
6. Do you have any photos of yourself at a Bike MS event or at your position??

Krista KB6MYR Andy W6AJB Michael AF6FB

FROM THE CHAIRMAN'S DESK.

MARC News First:

We again had a small turnout at the MARC meeting on **Sat. April 11th**. Thanks to all those who did make it to the meeting. There was a lot of information to hand out about the 3 different charity events we had coming up in April. As it turned out we did have enough MARC volunteers to fully support those three events even though two of the charity events happened on the same day, **Sat. April 18th** was the dates for both the **San Diego Tour de Cure** at the Del Mar Race track in San Diego, Co. & the **Tour de Orange County** and they were approximately 75 miles apart. So that made it a very busy day for our MARC charity event volunteers. **Sat. April 26th** was another ADA event that is held next to the Queen Mary in Long Beach, CA. It is called the **Ship to Shore** event and was held yesterday as of this writing. We were told that there were over 2000 riders for this event this year as in past years. It is **the one time of the year that the bicycles are allowed over the Gerald Desmond and Vincent Thomas Bridges** that span the main waterway to the shipyards where the huge ocean going cargo ships come into the Long Beach harbor to unload. So the bridge is blocked off for about 4 hours so that there is no traffic, other than the Ship To Shore ADA bicycle riders. Those bicycle riders love that view from that bridge. **Saturday May 9th** is our MARC 23rd anniversary meeting. Doesn't seem possible that it has been **23 years** since we held our first MARC meeting at Denny's restaurant on 17th street in Santa Ana, CA. These anniversary meeting are always some of the largest meetings of the year because it is our anniversary meeting and it is also the meetings where the richest (highest priced) door prizes are drawn for. See else where in this MARC Newsletter for the list of prizes to be drawn for. Some \$400 & \$500 prizes will go to the lucky winners.

Ray & Bonnie news:

April 1st, 2015, 54th anniversary of the day I started at the Inglewood Fire Dept. That was no April fools joke to me for sure. **Wed. 4-2-15**, picked up new eye glasses, wore them 2 weeks as instructed. Took them back 4-14-15 and found out the eye doctor had made a mistake in the prescription. (it was his birthday) and he was in a hurry to get out of the office and meet his buddies for a golf game, no kidding. **Monday 4-27-15 (today)** new lenses haven't come back in yet. But old glasses still better than the first replacement ones they gave me. **April 7th**, the 24th anniversary of the day I retired from the Inglewood Fire Dept. So worked there for 31 years & 7 days. It was fun

while it lasted. **Friday April 17th**, got a water leak scare in one of our bathrooms. We could hear water running and we thought it was coming out from under the tub. Four days later while I gone to Front Sight, the plumber came and fixed the overflow valve in the toilet and that was the end of the leaking sound. Yea, I could just see the dollars flying out the door on that one. :-)
Sunday April 19th, left for Pahrump, NV for the Monday morning start of another Front Sight 4 Day Defensive Handgun Course with MARC members, John KC6ZOZ, Jim KD6REA, Charles KF6TXI & friend Michelle. We love that place and with friends it is really a fun time to get away for awhile. **Thursday April 23rd**, got home about 9:30pm after dropping John off at his home. Unloaded all the guns & extra ammo that we didn't shoot up. I was pretty tired of being out in the desert for 8 or 9 hours a day and then driving home and unloading the van. Driving home we hit very high winds North of Baker CA and from Baker all the way to Hesperia we were in very heavy rain, yeh, that's right, but none of it fell in Orange Co. **May 1st**, will be Bonnies' and my 26 wedding anniversary. God only knows how she has put up with me for 26 years. **May 10th**, Happy Mothers Day. **Monday May 18th**, Ray's 83rd Birthday, Yea, I think I am going to make it to 83. = **May 25th**, Please have a safe & happy Memorial Day.

For our MARC members, be sure to support our MARC Newsletter advertisers and those who support us by providing the many door prizes and super raffle prizes at our MARC meetings.

DODGE THIS IRS SCAM!!!!

Filed your taxes but get a call from an IRS agent saying you owe money and have to pay immediately or go to jail? It's a scam! The real IRS doesn't demand instant payment over the phone. If you think you may owe, call the IRS at 800-829-1040

Should you see a Doctor??

Yes, if you get frequent muscle cramps! Certain conditions that interfere with blood circulation or muscle metabolism like diabetes and thyroid disease can trigger repeated cramps.

SHIP TO SHORE TOUR DE CURE 2015

Well, the 2015 ADA Long Beach Ship to Shore event is in the can as they say, and MARC as usual did a great job. A huge thank you to everyone who helped put this event together before, during and after the event. Before the event, the routes were supposed to be marked, and Krista KB6MYR and Mark, KE6ZRP were at the spot to get started. However just before arriving at the spot to start marking, it rained quite a bit, making it impossible to make the markers stick. Krista thought that the day would be fine, so she arrived on her bike! Oooops. Fortunately, the rain did let up some, and she made it home safe. So Rich, the route creator and mastermind stayed late and started early Sunday morning marking the routes. As it turned out, there were no complaints about the routes and how they were marked, although Bob, N6UK did spot a mis-marked corner and put down a blue arrow. During the event, things went really smoothly almost the entire day. Only 1 off course rider who was found by one of our motors and put back on course, and one semi serious accident between the bridges (more on this later). WE had great support on the 100 mile route by Bob, N6UK and Michael, AF6FB. The 61 mile route had great support by Krista, KB6MYR, Jeff, KB6SUP, and Bill K6WBD. The 32 mile route was supported by John KE6ZOZ, Charles KF6TXI, John N6JCB and Joseph W6UPB. Joseph did double duty by following the very last riders out of the start and following them to the beginning of the bridges where he notified the officials there that no more bicycle riders were to enter the bridges. This allows us to watch only Tour riders and allow the people that pick up the plywood and carpet for the joints of the bridge to get started with their job. We also had some great SAG support along the entire route. Scott KI6IXQ, Alvin KD6UZM, Dick N6ISY, Richard AF6TM and Fred KI6RJN were awesome and professional. Thank you guys as well. Then at Net Control, Bonnie, KD6OFQ and Ray, KD6FHN loaded the van with the equipment, along with Alvin and arrived in the dark to set things up. Helped by Mike, N6QZT, Teri KF6HJT, Cody KI6MMC Ray KD6FHN and Chris, net control was well covered. I took a spin this year at the radio directing the SAGS which proved to be interesting and very insightful. Talking may come easy to most of us, but talking under pressure and decision making on the fly can be tough when it gets fast and furious. I have a new appreciation for those on the radios. Chuck KG6NJP did a great job at net control with the APRS, I would holler over to chuck and ask "where is so and so" and he quickly gave me the right answer. Chuck and Bill D do a fantastic job of making the route GPS files and slips that we use. Without these 2 guys, we would certainly be riding blind. Now for the after, I was not aware that I should have included accident report forms with the operation plan that I sent out. This should be sent out with EVERY event we work, and sending it with the op plan servers as a reminder to everyone that we NEED to use

them any time the paramedics are called. We had a rider taken by ambulance to the hospital, great, but which rider and what hospital? ADA officials needed to know which rider so that they can notify the person named on the registration form as emergency contact, and which hospital they are being taken to so that ADA officials can go and check on them. I will include this form at all rides that I chair in the future. And one other thing that I was thinking about was at net control. It could be nice if we can find a way to put the APRS screen up so that all the operators can see it. Maybe a large screen or something. I know it is difficult because of the lighting and glare during the day, but if someone has an idea I would like to hear it. One final note, each of the events we do I see how MARC members work with each other to overcome problems that might arise. Help with programming a radio not working right, covering for a net operator so they may take a break, or riding along with another member is the kind of stuff you can not put in any op plan. We all do this, Maybe that is why I love this club so much, not just the toys!

Thanks

coordinators

Mark, KE6ZRP

Bonnie, KD6OFQ (Mark, you did a great job with sags)

John, N6JCB

Helllloooo Tour Committee!!

I wanted to just reach out to you and let you know that we are getting **RAVE REVIEWS** on the Tour De Cure this weekend. We have had some very positive remarks and compliments and you all should be proud. I want to thank all of you for your time and efforts in Stopping Diabetes. And, on a side note, it was a pleasure to get to know a few of you better this weekend. Nothing says bonding more than moving tables, loading trucks, moving copious amounts of water and strapping on Go Pros to helmets.

As the newbie to the ADA, I want to let you all know that you truly have an amazing committee. Not all nonprofits have the luxury of such tremendous passion and camaraderie! Trust me!

In the next few days, I will be adding more photos to Facebook, so keep an eye out. I got some great shots hanging out of the sunroof of Cassie's car.

I look forward to wrapping up with you and hope that all of you will continue to dedicate your time and hearts to the ADA. We sincerely appreciate each and every one of you!

THANK YOU THANK YOU THANK YOU!!

Dual- & Tri-band VHF / UHF

Comet developed the Super Linear Converter (SLC) to increase actual gain of dual and tri-band antennas.

- A complete pre-formed phasing coil and phosphorus copper element eliminate additional components and gain loss.
- The SLC is electrically very efficient, providing a low angle of radiation, directly to the horizon.
- Comet sectional antennas use ABS (Transparent to RF) connecting joints for the finest pattern and easiest assembly.

REDUCING YOUR RISK

WITH APPLESAUCE!!

Eating 2 1/2 cups of cooked fruit (for example, applesauce, stewed prunes or poached pears) each week can cut your risk of developing pancreatic cancer 44%, recent Italian research suggests.

The reason? Fruit is brimming with nutrients that nourish and heal the pancreas, and cooking breaks down plant cell walls, making it easier for your body to absorb those protective nutrients, explain the study authors.

(Brenda Kearns-WW)

HAM RADIO REPAIR

John Klewer N6AX 714-993-0435
Placentia, CA 92780 Licensed since 1968
Yaesu Bench Tech 5 years
HRO Service Tech 4 1/2 years
25 years Independent Repair specializing in Kenwood, Icom, and others
Gladly repair your TS-120,130,140,430,440
520,530,820,830,850,930,940,950
TM-741 etc. Yaesu FT-736R specialist
Most Icom models repaired as well.

I'M JUST TRYING TO GET A VALUE PERSPECTIVE HERE--- I'D SAY EACH SLEEVE IS WORTH AN ICOM IC229H, THE MAIN BODY IS EQUAL TO A TEN-TEC PARAGON, AND THE COLLAR-----

NO MIX CHERRY PINEAPPLE NUT CAKE
350 degrees 50 MIN

- 1 20 OZ CAN CRUSHED PINEAPPLE IN HEAVY SYRUP
- 1 21 OZ CAN CHERRY PIE FILLING
- 1 PGE YELLOW CAKE MIX 4 2 LAYERS
- 1 CUP CHOPPED PECANS
- 1/2 CUP SLICED BUTTER

SPREAD PINEAPPLE EVENLY IN PAN
SPOON PIE FILLING OVER PINEAPPLE
SPRINKLE CAKE MIX OVER & ADD
PECANS & SPREAD WITH SLICED BUTTER
